SEVENTEENTH BIENNIAL REPORT

OF THE

Montana State Board of Equalization

TO THE

Governor and Members of the Thirty-Fifth
Legislative Assembly of the
State of Montana

For the Period

July 1, 1954, to June 30, 1956

Members of the Board

J. F. Reid, Chairman

E. J. Byrne

W. J. Winters

Letter of Transmittal

Helena, Montana

December 15, 1956

To His Excellency, Governor J. Hugo Aronson
and Members of the Thirty-Fifth Legislative Assembly
of the State of Montana:

In compliance with the duty imposed upon the Board by Section 84-708 (18) of the Revised Codes of Montana of 1947, the Montana State Board of Equalization herewith submits its Biennial Report for the period July 1, 1954 to June 30, 1956.

STATE BOARD OF EQUALIZATION,

J. F. Reid, Chairman

E. J. Byrne

W. J. Winters

To His Excellency, Governor J. Hugo Aronson

and Members of the Thirty-Fifth Legislative Assembly:

Gentlemen:

The State Board of Equalization has devoted all its efforts, the past two years, to a three sectioned program.

One—to thoroughly modernize operations and methods in every department to the limit of governing laws.

Two—to utilize this converted operation to produce all possible revenue under existing laws.

Three—to carefully study the flaws in present revenue laws, individually and as part of the revenue unit, always keeping in mind the relationship between equalization and revenue, with stress in that order.

Montana revenue laws, back to and including the Constitution, are almost without exception copied or borrowed from other states. As each new tax law was added, the primary, and in most cases, the only concern was needed revenue. Little or no consideration was given to the equalization of the tax burden. Original thinking is very much past due in Montana.

At the turn of the century, needs were simple and one tax base, namely property, was sufficient. Our present complex economy, with its extravagant demand for public services, has created a revenue problem that can no longer be met with limited tax bases or stop-gap legislation. Economy is still one of our greatest sources of revenue, but is ignored in these affluent times. Our remaining choice is the equalization of this ever increasing burden.

Property

Keeping in mind that a tax is always levied against the person, the measure of that tax can no longer be tied to one or two tax bases. Although the ownership of property as a measure of tax is a common one, it definitely does not equalize the burden.

A great portion of our property is in the form of intangibles, such as stocks, bonds, unsecured notes, etc. With few exceptions, this intangible property escapes the ad valorem tax. It is true that the income from these intangibles is subject to the income tax, but the income from tangible property, such as land, livestock and rental property is also subject to income tax. The net result is a double tax on tangible property.

This lack of equalization is corrected only in a small part by the income tax which is the only other major tax directed at the individual. This proves the need for multiple tax bases. In fact, every possible tax base should be utilized for: one, to achieve reasonable equalization of the tax burden; and two, to insure by varying adjustments in these bases the proper spreading of increased revenue demands.

At the present time, there is an excess tax on property to the extent of fourteen million dollars. Although part of this excess is due to State levies

for state purposes, the entire excess should be absorbed by other existing bases and all new ones added.

A positive ceiling is necessary to protect the property base, if we are to avoid stagnation in individual ownership and industrial development. If we insist on keeping the property classification law, the ceiling on property will have to be on a millage basis. If the property classification law is discarded, the ceiling can then be on a dollar basis. The millage ceiling should be limited to forty mills for all purposes but debt service. If on a dollar basis, the ceiling should be limited to one per cent of full and true value.

The six mill levy on all property in the state for University purposes will be up for reconsideration at this next session. The demand will be for an increase to a possible ten mills. If property generally is going to be relieved of excess taxation, now is the time to begin this relief by transferring this burden to another base.

With the excess burden removed from property, the remaining need will be proper equalization of the remaining burden by reappraisal and reclassification. The ceiling in itself will be proper incentive for equalization.

In the past ten years, the taxable value of property has increased 71 per cent, and, in the same period of time the dollar tax on this property has increased 163 per cent. Is this sufficient warning to place this in the number one spot on the agenda in the 1957 Session?

Recommendation

Anything that can be accomplished regarding taxes at the regular session will be of a temporary nature for most pressing needs. Stop-gap legislation of this type has a tendency to compound past mistakes and further distort the existing inequities.

We feel that a Governor-appointed group representing **all sections of the Montana economy**, should work with the State Board of Equalization to work out a balanced tax program for the state.

The special tax committee of not to exceed ten men should be paid both per diem and expenses or a flat sum to each individual to insure proper study for a required written report from each member.

A thorough study by this group will reveal how far we have drifted without a firm program. The need for economy in all departments of government will be evident, and finally the attempt to balance available revenue with present and future demands for public services will prove the need for a back to earth beginning.

Independent committees, organized across the State, covering each special phase may work with the main group to keep them aware of the special problems of each industry.

Possibly the findings of the group will reveal the need for a special session of the Legislature to work on tax problems exclusively. A special session will have the advantage of an experienced membership, all organized and ready to go.

Tax Problems Requiring Special Study

1. A definite ceiling on property taxes.
2. Removal of the state from the field of property taxation.
3. Re-examination of all natural resource taxes.
4. A complete and thorough review of the property classification law.
5. A special review of the peculiar problems of timber taxation.
6. A free holder law on property indebtedness.
7. Bonded debt limitation on property by interest control.
8. Variable ratio formulae for allocation of state-collected revenue.
9. Distribution of net proceeds revenue on a more realistic basis.
10. A review of all exemptions from any tax, including leasehold interests.
11. An inventory of all property in the state regardless of ownership, including state, county, city and federal property.
12. Multiple tax bases to insure equalization.
13. Dollar goal for each base instead of rates.
14. Relationship between taxes bases, dollarwise.
15. Paid tax collectors.
16. One tax administrating and collection agency.
17. A state tax court.
18. A concerted effort by the eleven Western States to reduce Federal drain on revenue in preference to Federal Aid with strings attached.

Income Tax

By the end of 1956, or very shortly thereafter, the Income Tax department will be current for the first time.

A combination of events made this possible; namely, the change in the State law to make it conform as closely as possible with the Federal law; second, the withholding provision of the State law, and; third, the I. B. M. operation just added—all Board of Equalization requests at the last session.

Under the protection of the above, we set up three teams. One to audit old returns forward, one to start with current returns and work back and the third team to follow through on "1 A's" to clean up out-of-state delinquents.

As part of the modernization program, we microfilmed all old returns of consequence beginning with 1933, the start of the Income Tax Act, and destroyed the accumulated mass of records.

With the cooperation of the Internal Revenue Department, we microfilmed all Federal returns filed in Montana. This provided the figures necessary to compare Montana revenue with Federal revenue on a percentage basis. It further provided the necessary audit for State returns to avoid duplication of expense for the Montana taxpayer.

By the end of the 1956 fiscal year, all windfalls in this department will have been exhausted. The three year tax collected in two years under withholding will be then on a current, yearly basis. The delinquents will be thoroughly checked out and ready for charge off, and any change in revenue status of this tax will have to be arrived at through rate or exemption change.

Recommendation

To further simplify this operation and to reduce the cost of administration we feel that the State Income Tax should be tied to the Federal Income Tax on a percentage basis, this percentage to be adjusted by the State Board of Equalization to attain a dollar goal and, therefore, prevent any change on a Federal level from upsetting the revenue needs of the State.

At the present time, the ratio of State income tax to Federal income tax in Montana is approximately six per cent. Individual cases will reflect a variation from this percentage, but the end result will be an increase for taxpayers with up to two dependents and a decrease for taxpayers with dependents in excess of this number.

This new approach will also recognize the need for the additional deduction for both the aged and the blind, which is not covered under the present Montana law.

Withholding provision will be simplified under a percentage system as will the estimate system of prepayment.

Finally, a net tax of at least five dollars should apply to all taxpayers. There is a basic obligation for all, regardless of income, that can be measured in no other way.

Corporation License Tax

In the second year of the last biennium which ended June 30, 1955, our Corporation License Tax collection totaled \$1,573,118.79 for the year.

In the first year of the present biennium, the collections totaled \$3,004,998.01. This total includes taxes paid under protest in the sum of \$682,297.44, leaving a net collection of \$2,322,700.57.

The reason for the tremendous increase in 1956 over 1955 was the stepped-up program of auditing which resulted in a total of 207 deficiency assessments in the year. These deficiency assessments extended back over a period of years varying in each account.

The protest tax total of \$682,297.44 represents many accounts and final determination of the tax will be resolved in the courts.

Our domestic corporations present little or no problems, but, under our present Corporation License Tax Law, foreign corporations are allowed too much latitude in the preparation of their returns, which results in a negative tax in too many cases.

Recommendation

A completely new Corporation Income Tax Law with the tax measured by gross income would correct this condition. The tax rate should vary with types of operation and would range from one-quarter of one per cent up to one per cent.

There would still be some corporate operations not subject to this tax, so the present Corporation License Tax Law, revised to meet modern conditions, would still be advisable as an adjunct to the gross income tax.

When total revenue from this source is brought up to proper relationship with others, adjustment in rates of all taxes would absorb the need for additional revenue.

As was mentioned in the individual tax report, a minimum tax for all corporations is very much in order and for the same reason.

Gasoline Refund Department

We are pleased to report that the gasoline tax refund department is a current operation. The abuses have been thoroughly removed, internally, externally and from top to bottom.

The majority of the claims received are clean and proper and promptly paid. The majority of the dealers have given the program complete cooperation. We still have a small percentage of our claimants who insist on abusing this refund privilege; we have a few dealers who not only keep themselves in trouble, but make things very difficult for their customers.

Our rules and regulations have to be geared to this minority, and of necessity have to be applied to all claimants. We ask the indulgence of the people generally, to the end that we can keep this program effective.

The percentage of refunds to gross collections for the five-year period previous to this program averaged 22.60 per cent. The average for the four years this new program has been in effect is 17.50 per cent.

This resulting reduction of refunds for the years 1953, 1954, 1955 and 1956 has provided additional funds for the highway department in the amount of \$3,644,737.

It is possible to find petty things that are not letter perfect, such as the present permit requirement, but the entire operation, examined objectively, reflects efficiency on the part of the department, and the fine cooperation of the people served.

In view of the fact, that the majority of the people filing claims for refund comply with the laws and regulations, there is no reason why a complete change in this program should not be tried.

Under the present system, we are asking farmers and other off-highway users to tie up badly needed funds in fuel taxes that they do not owe. There is no reason why exemption certificates cannot be used as is presently done for aviation purposes. To protect the interests of these honest applicants, severe penalties should be imposed under law, to stop the abuses by the few. If, after a two year trial, the percentage level of refunds shows an abnormal increase, a return to the present system would be in order.

This exempt system is very necessary for counties and cities, where budgets have to be set up to include the tax which is not a true expense item.

A test trial of this program we are sure would prove our people completely trustworthy.

Gasoline License Tax

As we have mentioned before, we continue to collect license tax from the dealer, refiner, or importer for the privilege of doing business in Montana. We then proceed to refund this license tax collected from one taxpayer, the dealer, to another taxpayer, the off-highway user. The constitutionality of this is going to be questioned sooner or later with a resulting tieup in all related programs.

We again wish to call attention to our present 2 per cent allowance for evaporation and other losses. Every time we increase the tax we increase the rate of evaporation. When the tax was one cent per gallon, the allowance for loss was \$20 per 100,000 gallons. Now the allowance is \$140 per 100,000 gallons.

If this allowance is to cover evaporation and other loss, this should not change with the tax, but should be a fixed allowance per quantity of fuel. If it is a payment for collecting the tax and advancing the money, before collection it should be so designated.

To prove how we and other states continue to stumble over these problems, this allowance varies from a low of \$16.25 per 100,000 gallons in one state to a high of \$210 per 100,000 gallons in another, with every conceivable figure between these extremes. Montana presently is \$140 per 100,000 gallons.

A proper approach would be a collection allowance of one per cent; for the money is not only collected but advanced to the state before collection.

The evaporation and loss percentage should be cancelled out for refiner, distributor and dealer report on the basis of the number of gallons withdrawn. Gallonage lost is not included in this tax return, therefore there is no need for the deduction. A good example is the storage facilities on the pipeline at Helena. We consider this as part of the refinery and the tax is due as fuel is withdrawn from these storage tanks. The transports move this fuel to distributor, dealer or user on a firm gallonage basis for the loss is behind them and was not included for tax purposes.

Three years ago our fuel collection agency was staffed with two people. One man to do all field auditing both in and out of the state and one girl to handle the officework.

At that time it required this lone auditor at least five years to make the rounds of refineries for some were as far away as Oklahoma. The dealer audits could not be brought to current status because of the lack of help.

We have moved to correct this condition by adding two auditors to assist Mr. Armitstead; the office staff has been bolstered by additional help. Just when the operation looked a bit bright a new responsibility developed from the last session. This change will require the auditing of truck operation records and these operators are from every state in the union.

By June 30, 1957, audits will be current on all refineries, licensed importers and special fuel dealers.

	Montana	Out of State	Total
Refineries	4	8	12
Licensed dealers (importers).....	8	30	38
Special fuel dealers.....	374	8	382

Special fuel users totaling 1050 with 489 of them from 33 states will never be audited directly, but only by dealer cross checks. Even the 374 special fuel users in Montana will require an audit staff beyond our present capacity and dollar-wise will be a very poor investment.

The present system of taxing, checking and auditing trucks borders on persecution. Many precious operating hours are lost by highway checks, office time is used for special audits and long, detailed reports have to be prepared for tax collectors. This whole procedure can be simplified by a gross receipts tax, records are already available, no stopping or weighing is necessary for tax purposes, earnings will be positively tied to use and the operators will be in a position to budget costs.

Inheritance Tax

Inheritance tax collections for the respective years of the biennium were as follows:

For the fiscal year ending June 30, 1955.....	\$1,388,603.74
For the fiscal year ending June 30, 1956.....	1,365,835.20
TOTAL.....	\$2,754,438.94

The above figures represent the largest biennial collection in the history of this department.

All Inheritance Tax collections are credited to the State General Fund.

Attorneys and personal representatives submitted 11,534 estate matters for audit during this period. In addition to the estate matters handled by this department, approximately 500 Consents to Transfer shares of stock in Montana Corporations owned by non-resident decedents were issued. The tax collected from such non-resident decedents amounted to \$10,073.50.

Recommendations

The Inheritance Tax Law was written in 1897, rewritten in 1923 and at various periods supplemental amendments have been added, but basically the law has remained unchanged. Many amendments would be needed over the years to correct existing flaws. We, therefore, feel that this revenue measure should be completely rewritten and should definitely incorporate a gift clause similar to the federal estate and gift tax law now in use. Roughly fifty per cent of this tax is being lost either by transfers in the form of gifts or transfers in question close to or within the presumptive period as listed under Montana law.

Cigarette License Tax

In 1947, the Montana State Legislature passed a Cigarette License Tax Law which went into effect on July 1, 1947. This law is administered under the provisions of Chapter 56, Title 84, R. C. M. 1947.

This law imposes a tax of 2 cents on each package of 20 cigarettes or fractions thereof sold and consumed within the State. By posting a \$5,000.00 bond, cigarette dealers and distributors are allowed to use Cigarette Tax Meter Machines which imprint an insignia on each package of cigarettes, showing that the required Montana Cigarette Tax has been paid.

Both wholesalers and retailers are allowed to purchase stamps which are sold only through the State Board of Equalization. Every wholesaler and retailer of cigarettes must have a license from this Board for the purpose of making such sales. Cigarette licenses are issued on a permanent basis and must be returned for cancellation whenever the sale of cigarettes is discontinued. License fees are \$15.00 for a wholesale license and \$5.00 for a retail license.

At the General Election on November 7, 1950, Initiative Measure No. 54 was passed by the voters of the State of Montana. This measure provided for an adjusted compensation payment to Montana veterans of World War II, the money for which was to be collected by imposing an additional 2 cent tax on each package of cigarettes. No discount is allowed on this additional tax and it is credited to the War Veterans Compensation Fund in its entirety. The law became effective on December 7, 1950 by the Governor's proclamation as provided by law. The state share of the tax is credited to the General Fund.

Cigarette Tax Collections were as follows:

Fiscal Year 1954-1955.....	\$2,761,524.31
Fiscal Year 1955-1956.....	2,933,293.08

Cigarette License Collections:

Fiscal Year 1954-1955.....	2,185.00
Fiscal Year 1955-1956.....	8,070.00

Discount allowed:

Fiscal Year 1954-1955.....	145,228.49
Fiscal Year 1955-1956.....	154,383.62

Total collected for Veterans Bonus Fund December 1950
through June 1956.....\$8,181,136.00

Total Veterans Bonus Bonds retired as
of June 30, 1956.....\$4,046,000.00

Recommendations

A study of our present cigarette tax law has revealed some peculiar things. You are aware that this tax is presently collected through the use of stamps

which are sold to licensed distributors and retailers for cash on delivery, and, in addition, the use of tax stamping meter machines which place an insignia upon each package.

As mentioned above, the stamps are sold on a cash basis, but the law provides for deferred payment when the machine is used.

Section 84-5608, R. C. M. provides for a discount of 10% on payment for stamps.

Section 84-5609, R. C. M. authorizes the use of the stamping machine, but no provision is made for a discount when the machines are used. Did the legislature feel that the deferred payment extended to machine users was to offset the discount?

Presently, the Board is allowing the discount both ways which has been the practice over the years since the bill was written in 1947.

We feel that the legislature should re-examine this law and correct these apparent flaws.

A further examination of the War Veterans' Compensation Bond Retirement Fund will reveal that the tax is being collected at a rate much in excess of the revenue need to retire these bonds. It is true that the investment return on this surplus money sometimes off sets the interest due on the bonds, but, the important fact is that the precollection of this tax and others like it is depriving the taxpayers of the use of several million dollars.

We have stopped State levies to correct the precollection on the University and State Hospital Bonds, but there is nothing the State Board of Equalization can do to correct this condition in the cigarette tax for Bonus bonds. Future bond issues of any kind should carry offsetting provision.

Chain Store License Tax

The Chain Store License Tax Law is administered under the provisions of Chapter 24, Title 84, R. C. M. 1947, which imposes a graduated license tax fee on all stores operating within the state, depending on the kind and number of stores operated. Under the provisions of the law, any mercantile establishment or other place of business from which goods, wares or merchandise of any kind are sold at either retail or wholesale is classified as a store.

The chain store license tax law was first inaugurated in 1933. In 1937, a second chain store license tax law was passed which materially changed the license fees and the classification of stores. However, this law was declared unconstitutional by the State Supreme Court, due to a faulty enacting clause. This was corrected by the law of 1939 under the provisions of which we now operate. All license fees and taxes collected under this law are distributed to the credit of the General Fund.

Store license tax fees are as follows:

WHOLESALE STORES:

Each Store\$ 38.00

RETAIL MERCANTILE ESTABLISHMENTS:

One Store\$ 5.50
 Second Store 50.50
 Third Store 100.50
 Fourth Store 150.50
 Fifth Store and Each Store in Excess of Five.... 200.50

Gasoline Filling Stations, Gasoline Distributing Plants, Grain Elevators, Lumber Yards and Hardware Stores:

One Store 5.50
 Second Store 8.00
 Third Store 15.50
 Fourth Store 23.00
 Fifth Store 30.50
 Sixth Store and Each Store in Excess of Six.... 38.00

The foregoing fees include the application filing fee of 50 cents for each store to be licensed. All store licenses expire on the 31st day of December. New places of business opening after September 1 of any year do not require a license for the balance of that year.

Chain Store License Taxes were as follows:

Fiscal Year 1954-1955.....\$159,637.50
 Total licenses issued 11,511
 Fiscal year 1955-1956 185,721.00
 Total licenses issued 12,959

Our recommended changes became law during the last session of the legislature.

We wish to advise this entire operation is being transferred to I. B. M. section beginning January 1, 1957. The new license will be in the form of an I. B. M. card.

State and Local Taxes

The net indebtedness of the State represented by general obligation bonds less sinking funds was \$5,602,563 June 30, 1956, an increase of \$2,235,459 during the biennium. Two new issues authorized by vote of the people in November, 1954, were sold in 1955: \$1,920,000 for construction and improvements at the State Hospital and \$1,440,000 for the Training School at Boulder.

The net debt of Montana counties stood at \$3,050,075 June 30, 1956. This is a reduction of \$237,000 from the 1954 figure. Thirty-one counties are free from debt and the amount owed by the remaining twenty-five counties is relatively small.

High school and district school indebtedness, net, totaled \$46,279,214 June 30, 1956, an increase of \$15,026,000 over the 1954 figure.

The assessed value of all property in Montana in 1956 was \$2,104,144,246, an increase of \$194,000,000 during the biennium covered by this report. State Board assessments of railroads, utilities and net proceeds of mines accounted for \$51,400,000 of the increase, railroads and utilities gaining \$32,000,000 and net proceeds of mines \$19,400,000.

The total gain in assessments by County Assessors was \$143,000,000, all major classes of property, except livestock, participating. The livestock valuation was down \$18,900,000.

State levies were held to seven mills in 1955 and 1956, one-half mill lower than in 1954, but higher levies for county, school and municipal purposes applied against the increased taxable valuation resulted in a record over-all property tax bill of \$74,043,146 in 1956, an increase of 19.9 per cent over the 1954 figure.

Tax delinquency is not yet a problem, the rate of delinquency running consistently about two per cent on real estate and three per cent on personal property taxes not secured by real estate. The amount in dollars, however, is rising due to increased levies and increased taxable valuations. The total delinquency of all taxes for all purposes in 1950 was \$3,948,326. The comparable amount June 30, 1956 is \$4,860,407.

SUMMARY OF ROUTINE ACTIVITIES

The activities of the State Board of Equalization are so extensive and varied in scope that an outline only can be given here. The work falls naturally into three broad divisions:

- (1) General supervision of the administration of all state tax laws.
- (2) Assessment of railroads, power lines and other property extending into or through more than one county in the state, and assessment of net proceeds of coal, metal and miscellaneous mines and oil production.
- (3) Assessment and collection of license, income and inheritance taxes.

In the exercise of its general supervisory powers over the administration of assessment, tax and revenue laws of the state, the Board prescribes rules and regulations governing county officials in the performance of their duties, prepares and prescribes uniform forms for the use and assistance of such officials, conducts hearings on appeal and on its own motion, advises, directs and assists municipal tax officials, collects and compiles information from administrators within the state and from state departments of other states, and performs a multitude of duties which naturally devolve upon it in connection with this phase of the work.

Property Assessments

The taxable value of railroads, power lines, natural gas lines, telephone and telegraph lines, oil pipe lines and other properties assessed by the Board approximates 26 per cent of the entire state taxable valuation. These assessments require consideration of stock and bond values, past and present net earnings, future prospects, present condition, and numerous other factors reflecting the actual value of the properties assessed. Forty-eight such assessments, aggregating about one-third of a billion dollars, were made in 1956.

The Following License Taxes are Administered by the State Board of Equalization:

Gasoline License Tax	Contractors License Tax
Oil Production Tax	Electrical Energy Tax
Cement and Plaster License Tax	Natural Gas Tax
Coal License Tax	Telegraph Company Tax
Carbon Black License Tax	Chain Stores License Tax
Sleeping Car Tax	Telephone License Tax
Corporation License Tax	Theatre License Tax
Freight Line Tax	Cigarette Tax and License
Inheritance Tax	Vermiculite License Tax
Personal Income Tax	

COMPARISON OF ASSESSMENTS BY KINDS OF PROPERTY 1919, 1939 AND 1956

REAL ESTATE AND IMPROVEMENTS:

	Assessed Value 1919	Assessed Value 1939	Assessed Value 1956

OIL PRODUCERS LICENSE TAX

Title 84, Chapter 22 of the Revised Codes of Montana of 1947, enacted by the Legislature of 1921 provided for a license tax in an amount equal to one per cent of the total gross value of all petroleum and other mineral crude oils produced within the state, the proceeds from this act to be deposited to the credit of the general fund of the state. The Legislature of 1923 amended the law, raising the tax to two per cent.

COAL MINERS AND DEALERS LICENSE TAX

Title 84, Chapters 13 and 14, Revised Codes of Montana, 1947, provides for a license tax in an amount equal to 5 cents per ton on each ton of coal mined within the State, and an equal amount on each ton of coal shipped into and sold within the State. Chapter 200, Laws of 1939, effective March 17, 1939, amended the producers law to permit an annual exemption of 50,000 tons. Proceeds are credited to the state general fund.

CEMENT AND PLASTER PRODUCERS AND DEALERS LICENSE TAX

Title 84, Chapter 12, of the Revised Codes of Montana 1947 provides for a license tax on cement, in an amount equal to 4 cents per barrel of three hundred and seventy-six pounds, and a license tax on cement plaster or gypsum in an amount equal to 5 cents per ton of two thousand pounds, on all cement plaster or gypsum manufactured within the state, and an equal amount on all cement, cement plaster, or gypsum imported for sale for use within the state. The license tax collected under the provisions of this act shall be deposited to the credit of the general fund of the State.

MOVING PICTURE THEATRE LICENSE TAX

Chapter 33, Title 84, R. C. M. 1947, as amended by Chapter 75, Laws of 1953, imposes a license tax for the privilege of operating a moving picture theatre within the state. The rate of tax is 1 $\frac{1}{4}$ % per quarter on income in excess of \$20,000.00 derived from the sale of moving picture theatre tickets. Operators who own or control two or more theatres are allowed an exemption of only \$2,000.00 per quarter on the combined receipts of all theatres comprising a chain. Reports and statements of receipts per quarter must be filed within 30 days after the close of each quarter, and must be accompanied by an application for a renewal license covering the quarter next ensuing.

All Moving Picture Theatre License Taxes collected are distributed to the credit of the General Fund.

Tax accruals for the past biennium were as follows:

Fiscal year 1954-1955 (Individual Theatres)	\$ 1,553.77
(Chain Theatres)	32,013.13
Total Fiscal Year 1954-1955	\$33,556.90
Fiscal year 1955-1956 (Individual Theatres)	\$ 2,034.82
(Chain Theatres)	28,227.47
Total Fiscal Year 1955-1956	\$30,262.29

TELEPHONE LICENSE TAX

The Telephone License Tax Law is administered under the provisions of Title 84, Chapter 26, R. C. M. 1947 which imposes a license tax of 1 $\frac{1}{4}$ % on the gross income, less \$250.00 exemption per quarter on revenue derived from the operation of all telephone business transacted within the State, whether operated by an individual, corporation, partnership or co-operative association. Many of the smaller telephone companies are not liable for the tax, due to the fact that they merely pay a monthly rental rate to the trunk company for connecting privileges and their income does not exceed the \$250.00 exemption per quarter allowed by law.

The tax is payable quarterly and must be paid within sixty days after the close of each quarter. By far the largest portion of the tax is paid by one company. All telephone license taxes are credited to the state general fund.

Tax accruals for the past biennium are as follows:

Fiscal Year 1954-1955	\$169,642.00
Fiscal Year 1955-1956	187,664.00

TELEGRAPH LICENSE TAX

Under the provisions of Title 84, Chapter 23, Revised Codes of Montana, 1947 a license tax of two per cent of intrastate income is imposed upon the operators of telegraph lines for the privilege of engaging in such business. One company reported under this Act, and paid taxes which amounted to a total of \$1,070.18 during the fiscal year ended June 30, 1955, and \$1,015.97 during the fiscal year ended June 30, 1956.

PUBLIC CONTRACTORS LICENSE

Title 84, Chapter 35, Revised Codes of Montana, 1947, provides that all contractors who submit proposals to, or enter into contracts with the State of Montana or any of its political subdivisions must procure a license from the state of Montana whenever the value of such bids or contracts exceed \$1,000. The law authorizes the issuance of three classes of licenses, depending on the value of the contract as follows:

Class A—Amount of Contract, unlimited, fee \$200.00.

Class B—Amount of Contract, limited to \$50,000, fee \$100.00.

Class C—Amount of Contract, limited to \$25,000, fee \$10.00.

Licensees may secure a renewal of their licenses in each successive calendar year by payment of 50 per cent of the fee for the original license, provided application for renewal is made on or before the first day of March of said successive calendar year.

All money collected under the provisions of Chapter 35 is deposited to the credit of the General Fund.

Public Contractors License fees collected by the State Board of Equalization 1955:

	Class of Licenses	Number of Licenses	Amount
New Licenses	Class A	80	\$16,000
	Class B	31	3,100
	Class C	170	1,700
Renewals	Class A	210	21,000
	Class B	41	2,050
	Class C	273	1,365
		<hr/>	<hr/>
		805	\$45,215

1956:

New Licenses	Class A	72	14,400
	Class B	22	2,200
	Class C	168	1,680
Renewals	Class A	229	22,900
	Class B	39	1,950

		<hr/>	<hr/>
		757	\$44,275

NATURAL GAS DISTRIBUTORS TAX

Under the provisions of Title 84, Chapter 21, Revised Codes of Montana, 1947, a license tax of $\frac{3}{8}$ of one cent (1c) per thousand cubic feet is imposed upon distributors and exporters of natural gas for the privilege of distributing to consumers within the state and exporting through pipe lines for use outside the state.

The provision relating to exported gas was declared invalid by our Supreme Court in 1943. No taxes were ever collected under this provision.

All taxes collected under the provisions of this Act are credited to the General Fund of the State. The tax is payable quarterly.

Six (6) companies are reporting under this act:

	1955	1956
Thousands of Cubic Feet.....	35,693,953	40,313,743
Tax Paid	\$133,852.37	\$151,176.56

ELECTRICAL ENERGY TAX

Title 84, Chapter 16, Revised Codes of Montana, 1947, imposes a license tax of one per cent (1%) of gross receipts from sale of electrical energy generated and sold within the state.

The original law imposed a rate of $\frac{5}{8}$ of one per cent ($\frac{1}{2}$ %) of gross receipts. The rate was increased to one per cent (1%) by an act approved March 5, 1937.

All taxes collected under the provisions of this Act are credited to the General Fund of the State. The tax is payable monthly.

Five (5) companies are licensed under the provisions of the law.

	1955	1956
Tax Paid	\$233,095.64	\$260,745.45

FREIGHT LINE TAX

Chapter 137, Laws of 1949, effective July 1, 1949, provides that every freight line company shall pay annually a sum in the nature of a tax in the amount of five per cent of total gross earnings within the state. The declared intention is that the tax so computed shall not be greater than the amount that would be paid if the cars were taxed on an ad valorem basis. Proceeds are credited to the General Fund.

Railroads withhold the amount of tax due from freight line companies operating in the state and remit direct to the State Board of Equalization. Opportunity is provided freight line companies to protest and recover back any tax they deem excessive.

Eight railroads reported under this Act.

Attention is drawn to the fact that earnings of the freight line companies have dropped \$486,259 resulting in a decline in the tax paid to the state of an amount totaling \$22,313. This is a result of the transferring of this transportation from railroad tank cars to pipe lines; from refrigerator cars to highway transports. Inter-company transfers between the major oil companies in the interest of economy has also reduced this revenue.

	1955	1956
Gross Earnings of Freight Line Companies....\$	3,758,540	\$ 3,272,281
Tax Paid to State.....	185,927	163,614

SLEEPING CAR TAX

Title 84, Chapter 23, Revised Codes of Montana 1947, provides for a tax equal to 1½% of the value of property of sleeping car companies within the state. The law provides the manner of determining the valuation for assessment purposes. The board shall determine the value of the capital stock of such company, invested or used in its business. It shall then divide the amount so obtained by the total car mileage on railroads over which the company did business to obtain the value per car mile, and shall then multiply the value per car mile thus obtained by the total number of car miles within the state. The result shall be taken and considered as the actual value of the property of such company subject to the tax in this state. All taxes collected under the provisions of this law are credited to the General Fund of the State.

	1955	1956
The Pullman Company.....\$	13,477.82	\$ 16,632.07

EXPRESS COMPANY TAX

Title 84, Chapter 17, Revised Codes of Montana, 1947, provides for a tax in an amount equal to four per cent (4%) of the gross receipts of each express company for business transacted within the state. All license taxes collected under the provisions of this act are credited to the General Fund of the State.

	1955	1956
Railway Express Agency, Inc.....\$	11,074.05	\$ 9,911.07

GASOLINE LICENSE LAW

Chapter 92, Laws of 1929, provides for a license tax equal in amount to five cents per gallon on all gasoline manufactured and sold within the state, and on all gasoline shipped into the state. Effective July 1, 1949, the gasoline tax was increased to six cents per gallon and on April 1, 1955, the gas tax increased to seven cents per gallon.

Seventy-five per cent of the money derived from the license tax is credited to the State Highway Fund, one cent per gallon of all aviation gasoline to the Aviation Fund and the remainder to the Gasoline License Drawback Fund. If the Drawback fund is insufficient, the State Treasurer shall transfer from the Highway Fund. At the end of the fiscal year, all money in the Drawback Fund is transferred to the Highway Fund.

* Mining: Including Quartz, Placer, Coal Mining, Quarrying, Milling, and Smelting.

** Domestic: For use in home, such as cooking, heating and lighting.

*** State Wide: Gasoline consumed by companies and individuals operating in more than one county.

**** Unclassified: Refunds allowed for gasoline used in motor boats, ski lifts and other purposes, which do not fall into any of the preceding classifications.

* Various other expenses such as the Administrative Costs of the Highway Department, interest on debentures and other information pertinent to the gasoline tax will be covered by the report of the Highway Department.

** Tax increased July 1, 1949 to six cents.

*** Tax increased April 1, 1955 to seven cents on gasoline, nine cents on diesel fuel.

TAXATION OF MINES

Taxation of Mines

At the time of the constitutional convention, in 1889, Montana's only industries worthy of mention were metal mining and stock raising, with mining greatly pre dominant. Because of the peculiar character of mining property, and in recognition, perhaps, of the practical impossibility of intelligently valuing our fissure vein mines, the delegates to that convention wrote into the constitution the "net proceeds clause" providing a special method for the assessment of such property. Under this provision and subsequent legislation, mines are assessed by the county assessors at the price paid the Government therefor, and on improvements and machinery of all kinds. If the surface ground has a separate and independent value for some other purpose it is assessed at its full value for such other purpose. Net proceeds are assessed by the State Board of Equalization, such assessment being based on verified statements filed with the board by the producers and certified to the counties in which the mines are situated. The taxable value of the assessment at the price paid the Government (\$2.50 to \$20.00 per acre) and of the net proceeds assessment is 100% of the full and true value. The taxable value of the machinery, structures and appurtenances is 30% of full and true value. These assessments all take the regular levies applicable to the taxing district in which the property is located.

Coal mines, oil properties, lime rock, gypsum and other quarries and mines producing precious and semi-precious gems or stones, or any other valuable mineral or minerals, all come within the provisions of the net proceeds law and are assessed as outlined above.

Royalties

Oil and gas royalties are assessed in the name of the operator who is jointly liable with the royalty owner for the payment of the tax. The tax is payable by the operator, who may withhold the amount so paid from future royalty payments. Other royalties are assessed direct to the royalty owner. Each royalty is valued at the amount received by the owner, and is assigned to Class 1, taxable at 100%.

Mines License Taxes

In addition to the taxes paid on the assessments listed above, coal mine operators are required to pay direct to the state treasurer a license tax of five cents per ton on all coal mined in excess of 50,000 tons annually; oil producers pay 2% of the value of all oil produced; cement manufacturers pay four cents per barrel; plaster manufacturers pay five cents per ton, and metal mines operators pay annually a tax based on the market value of the metals produced. Coal, oil, cement, and plaster license taxes are treated more fully in another part of this report.

Metal Mines License Tax

The amount of metal mines license tax is determined by the State Board of Equalization from verified reports filed by the metal producers, and in this connection the board has authority to examine the books of smelters and reduction works if it deems such examination necessary or advisable. The first \$100,000 of gross production in each year is tax exempt; the next \$150,000 or portion thereof pays a tax of $\frac{1}{2}$ of 1%; the next \$100,000 or portion thereof pays a tax of $\frac{3}{4}$ of 1%, and all over \$500,000 pays a tax of 1%.

In arriving at the market value of the metals, average quotations in Engineering and Mining Journal are used as a base, and from these average prices the Montana value is determined. The same average prices govern all assessments. The amount payable by the metal producers in 1955 was \$590,437. In 1956 the amount payable is \$950,436. All of this revenue is credited to the general fund of the state.

**TITLE 84, CHAPTER 3, REVISED CODES OF 1947
AS AMENDED BY CHAPTER 178, LAWS OF 1951**

CLASSIFICATION OF TAXABLE PROPERTY

Sec. 84-301. For the purpose of taxation the taxable property in the state shall be classified as follows:

Class One. The annual net proceeds of all mines and mining claims, after deducting only the expenses specified and allowed by Section 84-5403; also where the right to enter upon land, to explore or prospect, or dig for oil, gas, coal or mineral is reserved in land by any person or corporation, the surface title to which has passed to another, the assessor and the state and county boards of equalization shall determine the value of the right to enter upon said tract of land for the purpose of digging, exploring or prospecting for gas, oil, coal or minerals, and the same shall be placed in this classification for the purpose of taxation.

Class Two. All household goods and furniture, including clocks, musical instruments, sewing machines, wearing apparel of members of the family, and all personal property actually used by the owner for personal and domestic purposes, or for the furnishing or equipment of the family residence; all agricultural and other tools, implements and machinery, gas and other engines and boilers, threshing machines, and outfits used therewith, automobiles, motor trucks and other power-driven cars, vehicles of all kinds, boats and all water craft, harness, saddlery and robes.

Class Three. Livestock, poultry and the unprocessed products of both; stocks of merchandise of all sorts, together with furniture and fixtures used therewith; and all office or hotel furniture and fixtures.

Class Four. All land, town and city lots, with improvements, manufacturing and mining machinery, fixtures and supplies, except as otherwise provided by the constitution of Montana, and except as such property may be included in Class Five.

Class Five. (a) All moneys and credits, secured or unsecured, including all state, county, school district and other municipal bonds, warrants and securities, without any deduction or offset; provided, however, that the terms "moneys and credits" as herein used shall not embrace the moneyed capital employed in the banking business by any banking corporation or individual in this state.

(b) All poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by co-operative rural electrical associations organized under the laws of Montana.

(c) All unprocessed agricultural products either on the farm or in storage, irrespective of whether said products are owned by the elevator, warehouse or flour mill owner or company storing the same, or any other person whomsoever, and excepting livestock and poultry and the unprocessed products of both.

Class Six. The shares of stock of national banking associations and the moneyed capital employed in conducting a banking business by any other banking corporation, association or individual in this state. Such money ascertained by deducting from the moneys and credits of such banking corporation, association or individual, the amount of the deposits and any indebtedness representing money borrowed for use in said business, and the value of the shares of any national banking association, to be ascertained by deducting the value of all real estate of such association.

Class Seven. All property not included in the six preceding classes.

If any of the provisions of this act are held invalid such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provisions or applications, and to this end the provisions of this act are declared to be severable.

Sec. 84-302. Basis for imposition of taxes. As a basis for the imposition of taxes upon the different classes of property specified in the preceding section, a percentage of the true and full value of the property of each class shall be taken as follows:

Class 1, One hundred per cent; Class 2, Twenty per cent; Class 3, Thirty-three and one-third per cent; Class 4, Thirty per cent; Class 5, Seven per cent; Class 6, Thirty per cent (See Sec. 84-308); Class 7, Forty per cent.

NOTE: Mill levies shown are for current year.

University Levy 1941-1948 inclusive, 3.50 Mills.

Unsecured personal property taxes, computed on prior year's levy, are included in amounts levied.

No General Fund Levy since 1941.

* 1955 Bond Issue.

COUNTY ASSESSORS—1956-1957

County	County Assessor	County Seat
Beaverhead.....	S. P. Meade	Dillon
Big Horn.....	S. N. Cunningham	Hardin
Blaine.....	Harold West	Chinook
Broadwater.....	Frank Holloway	Townsend
Carbon.....	George J. McDonald	Red Lodge
Carter.....	Floyd Ellis	Ekalaka
Cascade.....	William Ryan	Great Falls
Chouteau.....	E. W. Harris	Fort Benton
Custer.....	M. J. Flinn	Miles City
Daniels.....	Clifford I. Hanson	Scobey
Dawson.....	J. L. Stark	Glendive
Deer Lodge.....	Charles Unti	Anaconda
Fallon.....	Leon Rieger	Baker
Fergus.....	Norman J. Wagner	Lewistown
Flathead.....	Grant Campbell	Kalispell
Gallatin.....	Charles Sorenson	Bozeman
Garfield.....	Helen Hammond	Jordan
Glacier.....	Edw. Murphy	Cut Bank
Golden Valley.....	J. J. Schladweiler	Ryegate
Granite.....	Roy M. Greenheck	Philipsburg
Hill.....	H. S. Cooper	Havre
Jefferson.....	Josie Strieb	Boulder
Judith Basin.....	George Brownlee	Stanford
Lake.....	Bertha Streeter	Polson
Lewis and Clark.....	R. G. Lutey	Helena
Liberty.....	Edris Jensen	Chester
Lincoln.....	Leslie W. Leigh	Libby
Madison.....	Oliver Kendall	Virginia City
McCone.....	Ralph Robbins	Circle
Meagher.....	Robert Lyng	White Sulphur Springs
Mineral.....	Joe A. Mayo	Superior
Missoula.....	A. B. Jungers	Missoula
Musselshell.....	John J. White	Roundup
Park.....	Dan Officer	Livingston
Petroleum.....	M. N. Gershmel, Manager	Winnett
Phillips.....	E. N. Erickson	Malta
Pondera.....	Albert Severtson	Conrad
Powder River.....	Lawrence Thompson	Broadus
Powell.....	Victor Hendrickson	Deer Lodge
Prairie.....	G. R. Taylor	Terry
Ravalli.....	Roy Tillman	Hamilton
Richland.....	E. R. Poff	Sidney
Roosevelt.....	T. S. Dwyer	Wolf Point
Rosebud.....	Stella D. Over	Forsyth
Sanders.....	N. T. McIntosh	Thompson Falls
Sheridan.....	B. F. Ward	Plentywood
Silver Bow.....	Joseph Lester	Butte
Stillwater.....	O. C. Steinbrink	Columbus
Sweet Grass.....	Toy Moore	Big Timber
Teton.....	Fred Woodward	Choteau
Toole.....	Thelma Kelson	Shelby
Treasure.....	S. E. Williams	Hysham
Valley.....	Ed. Hodapp	Glasgow
